Feeding your baby hertsfamilycentres org
April 19th, 2019 - Breastfeeding Breastfeeding is a great way to get your baby off to the
best start. You may consider breastfeeding your baby as breast milk is the best food your baby can have – it’s tailor made for your baby. Breast milk boosts your baby’s ability to fight illness and infection in their first 6 months.

An Overview of Breastfeeding Verywell Family
April 20th, 2019 - Breastfeeding is the recommended way to feed newborns and infants. The American Academy of Pediatrics (AAP) advises mothers to breastfeed exclusively for the first six months of life and then to breastfeed along with adding solid foods to a baby’s diet for at least one year. After one year, the AAP states that a mother and her child can continue with breastfeeding for as long as they both wish.
